DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1, 3, 5, 8-18, 20-30, 33-45, 6-7, 19, 31-32, 46, 48, 47, 64-75, drawn to an apparatus and method of use, classified in class 422, subclass 50.
 - II. Claims 2, 4, 49-60, 5, 8-18, 20-30, 33-45, 6-7, 19, 31-32, 46, 48, 47, 64-75, drawn to an electrode apparatus and method of use, classified in class 204, subclass 403.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions of group I and group II are unrelated and independent inventions. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions as claimed have different modes of operation. The feature of a reference electrode of group II is not required by the claims of group I.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, and the literature and structure search of group I is not required for group II, since group I is drawn to an apparatus other than an electrode such as a chip and group II is drawn to an electrode. The restriction for examination purposes as indicated is proper.

Art Unit: 1641

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
